

# Hammer Time (feat. 1K Phew)

[Lecrae](#)

If Young Metro don't trust you I'm gon' shoot you Hammer time, they can't touch me, hammer time

Hammer time, they can't touch me, hammer time

Bedtime, I ain't never had a bedtime

Headline, boy, you lookin' at a headline

Hammer time, they can't touch me, hammer time

Hammer time, they can't touch me, hammer time

Fifth time, watch me kill the scene fifth time

Fifth time, we gon' steal the scene fifth time

I say, "MC Hammer," out the slammer, I'm sayin', "Free for real"

Few in my town will run through the line and Jesus took the wheel

I can't keep the Truth inside of me, I gotta squeal

Some folks trust in God, your cousin wears a dollar bill

Aw man, He gon' touch back down and seal the deal

Y'all playin'

Sorry I can't understand a word that y'all sayin'

Big boss moves, never heard of small plans

I just want some acres, I come from a small land

Nah, for real, itty bitty

Used to beat down bad boy, now I'm up like Diddy

Got a new wave, and we surf in' through the city

Christ is walkin' wit' me shining bright, we got it litty

Like, "Sheesh!"

Out the dog pound, we done made it off the leash

Makin' sure the people comprehend like, "Capiche!"

Young Georgia boy comin' straight up out the East

Grindin' 'cause my fam'ly gotta feast

Hammer time, they can't touch me, hammer time

Hammer time, they can't touch me, hammer time

Bedtime, I ain't never had a bedtime

Headline, boy, you lookin' at a headline

Hammer time, they can't touch me, hammer time

Hammer time, they can't touch me, hammer time

Fifth time, watch me kill the scene fifth time

Fifth time, we gon' steal the scene fifth time Hold up

Now tell me, who you foolin'?

Saw you coolin', flexing with the jeweler

Whatchu doin'? You don't measure up, I met the ruler

Closet full of J's, boy, you never been a shooter

And I don't need a chain, just to prove you, boy, I'm movin'

When you movin' out yo' mama's house, off yo' mama couch?

If we livin' what we talk about, you don't talk a lot

Sound booth, rented Lambo, you can say that

Took my money, built a studio, and took the Range back

H-Town to Atlanta, country bama, MC Hammer

Boy, we too legit to quit, I die, I resurrect, maÃ±ana

Put a nail up in your coffin, my hammer awesome

I ain't worried 'bout no pro'lems, the Lord I'll call on

My God!

Everybody eatin' if you part of my squad

And they know I'm workin', boy, I stay on my job

You know God my standard, He the answer

I ain't perfect, I'm just purchased, out here workin' with the hammer like Hammer time, they can't touch me,  
hammer time

Hammer time, they can't touch me, hammer time

Bedtime, I ain't never had a bedtime

Headline, boy, you lookin' at a headline

Hammer time, they can't touch me, hammer time

Hammer time, they can't touch me, hammer time

Fifth time, watch me kill the scene fifth time

Fifth time, we gon' steal the scene fifth time
