

I Want You

Marian Hill

Well babe I've got this drink
Turns out I've got some space
I love to drink alone
I hate this empty place
I'd like to spend some time
You look like Friday night
I'd like to dress you up and
Take you on a carpet ride I've seen a couple things
I know the way it goes
Like everybody says
'Cause everybody knows
Maybe you're the one for me
We could be so cliché
I hate to see you leave but
Love to watch you walk away I've been so tired on the weekend
I've been holding on too tight
I never thought I'd be thinking
"I want-"
I spent the whole summer sleeping
You've been staying up all night
I never thought I'd be thinking
"I want you" Don't make me play this game
Don't have the time to waste
Don't need to read my mind
'Cause I'll just tell you straight
Why don't you show me 'round?
And I can show you off
And if we're not too careful
Baby we can both get lost I've been so tired on the weekend
I've been holding on too tight
I never thought I'd be thinking
"I want-"
I spent the whole summer sleeping
You've been staying up all night
I never thought I'd be thinking
"I want you" I want you
I want you
So let me take you for a while
'Cause I've been so tired on the weekend

I've been holding on too tight
I never thought I'd be thinking
"I want-"
I spent the whole summer sleeping
You've been staying up all night
I never thought I'd be thinking
"I want you" I've been so tired on the weekend
I've been holding on too tight
I never thought I'd be thinking
"I want-"
I spent the whole summer sleeping
You've been staying up all night
I never thought I'd be thinking
"I want you" I want you
I want you
So let me take you for a while
'Cause I want you
