Dash 7

Wilco

Dash 7 in the air
Dropped to the sun alone
Jets humI wish that I was still there
Props not a jet, alone
Where the sun doesn't come downBecause I've found the way those engines sound
Will make ya kiss the ground
When you touch downDash 7 pointed down
The captain's announcement
Doesn't make a soundBecause I've found the way those engines sound
Will make ya kiss the ground
I found the way those engines sound
Will make ya kiss the ground
Will make ya kiss the ground
When you touch down
