

Coachella

lovelytheband

I miss when I saw your face
Drunk in our Sunday's best
All of those chemicals I snorted right off your chest Oh that was beautiful
We were young, we were beautiful
Oh that was beautiful
We were young, we were beautiful In your head it's Coachella every weekend
Free spirits and flowers on your head
I love the way that you laughed with me
I miss the way that you laughed with me
And we sang (oh, ah, oh, ah)
And we sang (oh, ah, oh, ah)
A careless summer and a wild heart
I'm at my best with you by my side
We danced and we lost ourselves
And loved all through the night Oh that was beautiful
We were young, we were beautiful
Oh that was beautiful
We were young, we were beautiful In your head it's Coachella every weekend
Free spirits and flowers on your head
I love the way that you laughed with me
I miss the way that you laughed with me
And we sang (oh, ah, oh, ah)
And we sang (oh, ah, oh, ah)
In your head it's Coachella every weekend
Free spirits and flowers on your head
I love the way that you laughed with me
I miss the way that you laughed with me
And we sang (oh, ah, oh, ah)
And we sang (oh, ah, oh, ah) In your head it's Coachella every weekend
In your head it's Coachella every weekend
