

# You Can Take the Wings Off Me

**Reba McEntire**

Now, I've never been in with the fast crowd  
I've never been closer than just a little over the line  
I know those nights, I'd find great temptations  
I go home to bed alone, pull the covers up over my mindI let it go by and said I'd save my feelings  
But until I met you, I hardly used them at all  
I should say, no, oh whoa, I don't want to  
Honey you will be the first one to watch this angel fallSo, you can take the wings off me  
Lay them down so carefully  
Hold me close tonight, you'll see  
I am yours and you can take the wings off meOh, you can take the wings off me  
Oh, lay them down so carefully  
Oh, I should say, no, oh whoa, I don't want to  
I am yours and you can take the wings off me
