## The Noise of Carpet

## **Stereolab**

I hate to see your broken face

This world would give you anythingAs long as you will want to As long as you will want to hate your state of hopelessness

And that vain articulateness

Your loser type wreck wanna be

Not a pretty sight really

In another world it'd be funnyI hate to see your broken face

A lazy life of fatal waste

Of fashionable cynicism

The poison, they want you to drinkOh no man, that's too easy Oh no man, that's so easyWe weren't talking 'bout happiness

Apply your leading potential

To be useful to this planet

The world would give you anythingAs long as you will want to As long as you will want to hate to see your broken face

A lazy life of fatal waste

Of fashionable cynicism

The poison, they want you to drinkOh no man, that's so easy Oh no man, that's too easyWe weren't talking 'bout happiness

Apply your leading potential

To be useful to this planet

The world would give you anythingAs long as you will want to As long as you will want to
