

# Velcro

## Clairity

Advisory - the following lyrics contain explicit language:

[Verse 1]

I'm dancing with my elbows  
I hack into your cellphone  
The cool kids got those shell-toes  
But I look good in velcro  
But I look good in velcro  
But I look good in velcro

[Verse 2]

Fall asleep to techno  
I make up my own tempo  
A prom date told me "Hell no"  
I still look good in velcro  
I still look good in velcro  
But I look good in velcro

[Pre-Chorus]

Nobody wants to dance with me  
Don't wanna dance with nobody  
I don't wanna dance with nobody  
If you feel sexy in your skin  
You don't need anybody  
You could, you could be anybody

[Chorus]

In this moment, I own it  
Can't seem to keep the rhythm  
But I know it, I know it  
So I change up momentum  
I control it, and I mold it  
Don't fit in, but I'm golden  
I still look good in velcro  
I still look good in velcro

[Verse 3]

I still play with LEGOs  
Crush a bag of pretzels  
Who the hell's Tiesto?  
I look good in velcro  
I look good in velcro

I look good in velcro[Verse 4]  
My best friend is Nintendo  
This level has no health codes  
I never left the friend zone  
But I still look good in velcro  
I still look good in velcro  
But I look good in velcro[Pre-Chorus]  
Nobody wants to dance with me  
Don't wanna dance with nobody  
I don't wanna dance with nobody  
If you feel sexy in your skin  
You don't need anybody  
You could, you could be anybody[Chorus]  
In this moment, I own it  
Can't seem to keep the rhythm  
But I know it, I know it  
So I change up momentum  
I control it, and I mold it  
Don't fit in, but I'm golden  
I still look good in velcro  
I still look good in velcro[Pre-Chorus]  
Nobody wants to dance with me  
Don't wanna dance with nobody  
I don't wanna dance with nobody  
If you feel sexy in your skin  
You don't need anybody  
You could, you could be anybody[Chorus]  
In this moment, I own it  
Can't seem to keep the rhythm  
But I know it, I know it  
So I change up momentum  
I control it, and I mold it  
Don't fit in, but I'm golden  
I still look good in velcro  
I still look good in velcro[Outro]  
I look good in velcro  
I still look good in velcro  
I look good in velcro  
I still look good in velcro  
I still look good in velcro
