Killing Yourself to Live

Snapcase

you're poisoning the sole essence
poisoning your whole existence for the substitution of cognition
walking around like the living dead
killing yourself
killing yourself
why do we kill ourselves to live
wafer-thin
new role models
suffer yourself caught in a fashion spin
full subscription
false admission
walking around with an empty head
a standard wage
routine daily
overindulge and live inside a cage
repetition of blurred vision
minimum gain from the blood we shed
