

Killing Yourself to Live

Snapcase

you're poisoning the sole essence
poisoning your whole existence for the substitution of cognition
walking around like the living dead
 killing yourself
 killing yourself
why do we kill ourselves to live
 wafer-thin
 new role models
suffer yourself caught in a fashion spin
 full subscription
 false admission
walking around with an empty head
 a standard wage
 routine daily
overindulge and live inside a cage
 repetition of blurred vision
minimum gain from the blood we shed
