Gutbuster

Consumed

It's never quite as good
The day you left me stood
Standing on my own two feet
I've you to thank for thatVent my spleen let it all come clean
It's busting up my gutsThis one's for you
For all the things you do
You never let me down
You can be trustedVent my spleen let it all come clean
It's busting up my gutsYou and me for history
And I know that nowVent my spleen let it all come clean
It's busting up my lifeCan you be trusted?
