

# Gutbuster

## Consumed

It's never quite as good  
The day you left me stood  
Standing on my own two feet  
I've you to thank for thatVent my spleen let it all come clean  
It's busting up my gutsThis one's for you  
For all the things you do  
You never let me down  
You can be trustedVent my spleen let it all come clean  
It's busting up my gutsYou and me for history  
And I know that nowVent my spleen let it all come clean  
It's busting up my lifeCan you be trusted?
