

Your English Is Good

Tokyo Police Club

Oh, give us your vote
Give us your vote
If you know what's good for you Oh, give us your vote
Give us your vote
If you know what's good for you These are the lines
That we straighten every year
And it's the second time
They mapped the constellation We searched for you by night
In the Deptford gravel pit
But until the tramp finds Christ
Injustice is my middle name You don't need to change
Your future's with us
You don't need to change
Your future's with us You look a wreck
Left your key inside the door
And my rook will check
Across this black and white chess board Your English is good
We can see it in your bones
In this neighborhood
We ain't driving you home You don't need to change
Your future's with us
You don't need to change Oh, give us your vote
Give us your vote Your English is good
We can see it in your bones
