

Backseat Lover

Dose

He hits me up
Asked me if im down to ride
Cancel your plans
Cause its gon be a special night
You take the lead
Ill sit in the back
Ill seduce you slow
Like the rhythm on this track boy
Its getting hot
Hearts beating slow
Just park the car
And let it Roll
Just bring your body Over here right next to me
Better buckle up Cause were on our way to ecstasy
Backseat Lover
Boy I wonder
What my body does
When you are taking me down
Boy im about to explode
Cause I am feeling it now
Backseat lover
Pull me under
Under your spell
Cause you are giving me life
So do what ever you want
Cause its what ever you like
Cause you're my backseat lover oh
Cause you're my backseat lover yea yea
Cause you're my backseat lover
Cause your my Backseat
loving in the back seat
I love the way it feels
When your rubbing against my skin
Your so amazed
At the way I make this body bend
But when you hear this sound
Im gona lay it down
I hope you got enough energy
to go another round boy
Baby take it slow
Now bring it back
Let me catch my breath

Okay now attack
The way you move is killing me
Boy you're my favorite fantasy
 Making all these faces
As we're loving in the backseat
Chorus Fogging up the windows
 Taking off all of our cloths
 Put the car in neutral
 And just let it roll
 Cause I cant help the way
 That you are turning me on
 Passions about to explode
 And ill no longer be in control
 Baby I just love the way
You takin me there
Chorus Give me your love
