

June Salutes You!

Guided By Voices

I know when it's coming
And it's not a bad thing
You wouldn't hold back
If you wanted to sing
You'd say "hey,
look over there"
June salutes you
With her oncoming glare
Like a chain in a gun
Like a call in the sun
Like a bell or a spell
Like an angel
With stars circling round her head
I want to be there
For each hopeless affair
Out of bucks and out of blame
But I can do it just the same
We're saying
"Come and intercept our love" (three times)
Lasting forever
For rain and wet weather
Enjoy us employ us
We'll serve it in a time of need
Hey, June salutes you
From the fundamental champs
And Tammy and the Amps
We're singing
"Come and intercept our love" (three times)
