Nights In Heaven -days In Hell

Missing Heart

Do you remember
Do you remember those nights of glory
And those days of hope
Oh how I miss youI miss your hand when the bridges are burning
I miss the lesson in pain we were learning
Miss the good and the evil in me
Can't see you
Can't see youOh we had nights in heaven
We had days in hell
We found words of passion
Only love could spell
Oh we had nights in heaven
We had days in hell
And we lost our loving
At the wishing wellNights in heaven
Days in hellThe story of our love
It's so hard to believe that it's over
But when you win - try to win everything
You can easily lose it allI miss your body that got me delivered
I miss your loving that just made me shiver
Miss the light and the dark and the blue
I miss you
Oh I miss you
