

# If I Ever Need a Lady

Justin Trevino

Don't the water grow the trees  
Don't the moon pull the tide  
Don't the stars light the sky  
Like you need to light my life  
If you need me any time  
You know I'm always right by your side  
And see, I've never felt this love  
You're the only thing that's on my mind  
You don't understand how much You really mean to me  
I need you in my life, you're my necessity  
Oh believe me, you're everything  
That just makes my world complete  
And my love is clear, the only thing that I'll ever see  
You're all I ever need  
Baby, you're amazing  
You're my angel, come and save me  
You're all I ever need  
Baby, you're amazing  
You're my angel, come and save me  
Don't the water grow the trees  
Don't the moon pull the tide  
Don't the stars light the sky  
Like you need to light my life  
We can do anything you like  
I know that we both can get it right, tonight  
You got your walls built up high  
I can tell by looking at your eyes  
You don't understand how much You really mean to me  
I need you in my life, you're my necessity  
Oh believe me, you're everything  
That just makes my world complete  
And my love is clear, the only thing that I'll ever see  
You're all I ever need  
Baby, you're amazing  
You're my angel, come and save me  
You're all I ever need  
Baby, you're amazing  
You're my angel, come and save me  
When it comes to you, baby I'm addicted  
You're like a drug, no rehab can fix it  
I think you're perfect, baby, even with your flaws  
You ask what I like about you  
Oh, I love it all  
When it comes to you, baby

I'm addicted  
You're like a drug, no rehab can fix it  
I think you're perfect, baby, even with your flaws  
You ask what I like about you  
Oh, I love it all  
You're all I ever need (all I ever need)  
Baby, you're amazing  
You're my angel, come and save me You're all I ever need  
Baby, you're amazing (amazing)  
You're my angel, come and save me
