

# Only God

## Ektomorf

No way, I say no way  
You can't put me down  
I know who you are  
I know what you want You can say anything  
You can say everything  
I don't care anymore  
'cause you need to know  
that No  
One  
Else  
Only god can judge me I am all your thoughts  
'cause you're so envy  
you just fuck up your energy  
cause you need to know  
that
