starlight

Edison Glass

Darkness can never hide
Night shines like the day
Arms who's reach
Through Heaven and hell ever nearIn starlight and sunshine
So marvelous thoughts can't contain
In story and song
So marvelous words can't define love, define loveThoughts for me an endless dream
I sleep to sounds of love
Your whisper wakens my ears to hear
You are thereIn starlight and sunshine
So marvelous thoughts can't contain
In story and song
So marvelous words can't define love, define loveYou define
You define
You define loveYou define
You define
You define loveIn starlight and sunshine
So marvelous thoughts can't contain
In story and song
So marvelous words can't defineIn starlight and sunshine
So marvelous thoughts can't contain
In story and song
So marvelous words can't define
