Ms. Shapes

BEDlight for blueEYES

We parked our car on the lower east side
And that's when she caught my eye, yeah
She dressed so scandalous but girls like that don't mess with guys like us
But I need to know her name
When I hit *that* floor gonna give her more than she bargained forHey, you know
Love how your body flows
Hey, you know
Let's see how far this goes
Tensions so thick girl I can't wait
To see how well your moves translate
Think you're more than I can takeNow I'm staring so hard she's got to feel it
Baby this ain't the look of love, no
Chasis like *a* Cadillac
Curves so tight that I might crash
But, hot damn what a way to go
We meet on the floor
She's never seen moves like this before
Heading for the door
Gonna give her more than she bargained forHey, you know
Love how your body flows
Hey, you know
Let's see how far this goes
Tensions so thick girl I can't wait
To see how well your moves translate
Think you're more than I can takeHey, you know
Love how your body flows
Hey, you know
Let's see how far this goes
Tensions so thick girl I can't wait
To see how well your moves translate
Think you're more than I can takeHey, you know
Love how your body flows
Hey, you know
Let's see how far this goes
Tensions so thick girl I can't wait
To see how well your moves translate
Think you're more than I can take, yeah
