# Taking Back Control

## Sparta

This home, this place
It turns its back on time and space
And we hope and you pray
But today is still todayOh, we ran ourselves
Ragged
And all these broken backs
TragicTried, you failed
Another mark you left in hell
And this cut will run
But the guilt has just begunOh, we ran ourselves
Ragged
And all these broken backs
TragicThe future bleeds
All these words conceit
Don't let it go
We're taking back controlThe future bleeds
All these words conceit
Don't let it go
We're taking back controlThis hole you told
Left blood on every door
We hope and you find
Tragedy will change you mindOh, we ran ourselves
Ragged
And all these broken backs
TragicThe future bleeds
All these words conceit
Don't let it go
We're taking back controlThe future bleeds
All these words conceit
Don't let it go
We're taking back controlTake controlThe future bleeds
All these words conceit
Don't let it go
We're taking back controlThe future bleeds
All these words conceit
Don't let it go
We're taking back control
