

# Bluebird Days

## Blue Highway

Blue bird days the way I remember them  
Fly Fly away at summers end  
Remember my friend til they come around again

Frozen in my memory the day that I met you  
Saw you in the winter in a flash without a blue  
Did I hear you say that he was carrying the sky upon his back

Blue bird days the way I remember them  
Fly Fly away at summers end  
Remember my friend til they come around again

Now the nights are getting colder and the days are not so long  
I think about you every time I hear that song  
I'll be waiting if you find your way back home to me again

Blue bird days the way I remember them  
Fly Fly away at summers end  
Remember my friend til they come around again
