

We Are Godzilla, You Are Japan

Lostprophets

I've heard all your whining
All this talk behind my back
The time is coming
The time is now for our attack
A new sun rising
A new one in your world of black
Don't try to stop this
You will break like glass Move over son
Your time is done
The weak are trapped under our feet
The city's gone
We see you run
Cause you can't take our heat Let's go
The only way we know
Is taking you out Did you not understand me?
Were you not listening last time?
A new day dawning
And were taking back your life
You look so pathetic
And were taking back control
I'm sorry but we have to let you go Move over son
Your time is done
The weak are trapped under our feet
The city's gone
We see you run
Cause you can't take our heat Let's go
The only way we know
Is taking you out Taking you out
