Groove Tonight

Nu Flavor

[chorus]:
It's a super future funkalistic, come on baby let's get with it
It's the future dance
We can grooove all night tonight (just you and me)
Just wanna hold you baby, 'cause you're my kinda lady
If you feel tthe mood is right, for pure ecstasy
Then let me taste your candy, ooo girl you drive me crazy
Everybody's talkin'
Talkin' 'bout the turn of the century
It may be the new millennium
But baby tonight it's just you and me
So let yourself unwind, no more nine to five
Just enjoy this time with me
And everybody, who wants to party
You'll find yourself movin' to the beat
'cause I know baby that
Chorus

Nobody knows what the future is gonna have in store for you and me
Nobody has a crystal ball
To tell us what tomorrow's gonna bring
So turn on the party lights, we can groove tonight
Come and take this ride with me
And everybody, who wants to party
You'll find yourself movin' to the beat
'cause I know baby that
Chorus
It's super future funkalistic, come on baby let's get with it
It's the future dance
Hey everybody, we're gonna party (aall over the world yeah)
Shake, shake your body
I wanna see you grovin' yeah, movin' yeah
Chorus
