Stop Crying

50 Cent

yeah, i am my, no lie, yeah, i am my, no lie,
they say they do it like i do it with no mask on
nigger get the fuck out of line, you getting blast on
jesus let the weak roam the earth without a purpose
without stumping, fucking it till its under the surface
now i need you to get it through your blood clot, hey
before i put a bullet through your blood clot dress
these niggers aint made of the same shit im made off
i dump a clip for my man if he need a favor
i let a nigger slide, he came back and almost shot me
then he was thinking i was scared, nah nigger not me
they dont understand i was raised by the vultures
kill laughing like hyenas in the crib full of roaches
so call grandmamma mommy cause mommy already dead
daddy biznesses is always a little kid
now who dares playing games with the
they know my pedigree testing me, im astop the blood clot crying, the kids the dog, everybody dying
no lying, dont cry, dry your eyes, dont cry, dry your eyes
stop the blood clot crying, the kids the dog, everybody dying
no lying, dont cry, dry your eyes, dont cry, dry your eyesthat first body drop we just getting started death come in 3s
hey all 15, m16, semiautomatic, murder machine
wave that, blaze that, give a nigger wing
when that blades in your flesh its an emergency
your lovely heart open call it surgery
feels like my last girlfriend, i lost her
one second thought, i know just where i left her, the altar
see i have an advantage, i dont care about tomorrow
found out that im aint fronting when them patients start to fall
you know attempted murder was the case that they gave me
now bullet wounds now a nigger half crazy
word is that a tear i see forming in your eye
why you so frightened were all gonna die
you can say a prayer when i come like a reaper
staring through that sight on the top of my heater, nowstop the blood clot crying, the kids the dog, everybody dying
no lying, dont cry, dry your eyes, dont cry, dry your eyes
stop the blood clot crying, the kids the dog, everybody dying
no lying, dont cry, dry your eyes, dont cry, dry your eyes.
