Fatalist

InTheShit

It's in my head now
It's in my mind now
It's in my face now
It's in my brain nowCity of mutants
Darken then night
Evil illusion
Guided by lightThe friends you thought
They never were
Egos and icons
They just don't careYou hope to die quiet
Laying in bed
It's better than pointing
A gun to your headIt's in my head now
It's in my mind now
It's in my face now
It's in my brain nowCity of mutants
Darken then night
Evil illusion
Guided by lightCity of mutants
Darken then night
Evil illusion
Guided by lightAll cold and forgotten
You only feel pain
This quest for hope
Is a losing gainAnother dream crumbles
In front of your eyes
Your paranoid vision
Only sees spiesIt's in my head now
It's in my mind now
It's in my face now
It's in my brain nowCity of mutants
Darken then night
Evil illusion
Guided by lightCity of mutants
Darken then night
Evil illusion
Guided by light
