## InTheShit

It's in my head now  
It's in my mind now  
It's in my face now  
It's in my brain nowCity of mutants  
Darken then night  
Evil illusion  
Guided by lightThe friends you thought  
They never were  
Egos and icons  
They just don't careYou hope to die quiet  
Laying in bed  
It's better than pointing  
A gun to your headIt's in my head now  
It's in my mind now  
It's in my face now  
It's in my brain nowCity of mutants  
Darken then night  
Evil illusion  
Guided by lightCity of mutants  
Darken then night  
Evil illusion  
Guided by lightAll cold and forgotten  
You only feel pain  
This quest for hope  
Is a losing gainAnother dream crumbles  
In front of your eyes  
Your paranoid vision  
Only sees spiesIt's in my head now  
It's in my mind now  
It's in my face now  
It's in my brain nowCity of mutants  
Darken then night  
Evil illusion  
Guided by lightCity of mutants  
Darken then night  
Evil illusion  
Guided by light
