

# Sunrise Serenade

## Hal Kemp and his Orchestra

Good morning  
Good morning  
You sleepyhead  
It's dawning  
Stop yawning  
Get out of that bed  
Say the air is soft as silk  
It's time to get the morning milk  
Come on!  
Wake up!  
Get up!  
Look at the grass  
Silver in the sun  
Heavy with the dew  
Look at the buds  
You can almost see  
How they're breaking through  
Look at the birds  
Feeding all their young  
In the sycamores  
But you better get on  
With your morning chores  
Just take a breath  
Of that new-mown hay  
And the sugarcane  
Looks like tonight  
There should be a moon  
Down in lovers' lane  
There you go daydreaming  
When it's time that you obeyed  
That sunrise serenade
