

# Stay The Same

Gabrielle

Mmm, hmm, ohh  
Mmm, mmm You should know by now that life is not the same  
I have watched you try to cover your mistakes  
I don't care about what the people say but it's down to me  
I know my mind and I will find my way And I don't regret the time we spent  
My time with you, it was not in vain And I wonder why  
And where it all went wrong  
And how you lost your hope  
You're the reason that I've gone And I wonder how  
How you came to change  
And why you lost your way  
Will I still stay the same?  
Stay the same Ohh, ohh, oh  
Mmm I couldn't spend my life always trying to please you  
The time had come for change  
That's when i realized that I really did need you  
And I knew right then I wouldn't take the blame And I don't regret the time we spent  
My time with you, it was not in vain And I wonder why  
And where it all went wrong  
And how you lost your hope  
You're the reason that I've gone  
And I wonder how How you came to change  
And why you lost your way  
Will I still stay the same?  
Stay the same And I don't regret the time we spent  
My time with you it was not in vain And I wonder why  
And where it all went wrong  
And how you lost your hope  
You're the reason that I've gone And I wonder how  
How you came to change  
And why you lost your way  
Will I still stay the same? And I wonder why  
And where it all went wrong  
And how you lost your hope  
You're the reason that I've gone And I wonder how  
How you came to change  
And why you lost your way  
Will I still stay the same?  
Stay the same Ohh, ohh, oh

Mmm
