## Birthplace

I see you passing by, I don't where, I don't know why  
You choose to go the way that you're going now  
You've been a friend of mine for many years for a long time but  
You just aren't you today, so what's on your mind?  
You just won't speak about it, think about it, be about it  
Gotta make yourself aware that you're goin' astray  
You're trying so hard to fit in  
What you need is something genuine  
What you want is something real  
What you need is something truthful  
I know you do, I know you do  
I know you do, 'cause I need it too  
What you need, what you need  
What you want, what you want  
What you need, what you need  
Something genuine  
You cry yourself to sleep  
Sleep at night but once the night is gone  
And you prepare to face a brand new day  
You hide yourself behind that mastermind  
You're in disguise  
It's as if you try to put a mask on your pain  
You don't know who you are  
What you're about, where are you now  
You're becoming someone that you don't want to be  
You're trying so hard to fit in  
What you need is something genuine  
What you want is something real  
What you need is something truthful  
I know you do, I know you do  
I know you do, 'cause I need it too  
What you need, what you need  
What you want, what you want  
What you need, what you need  
Something genuine  
He loves you for who you are now and who you will be  
Don't fear living in truth there's reality  
I don't have all the answers but I know One who does  
And I know there's freedom and truth, I got to Him because

What you need is something genuine  
I know you do  
What you need is something truthful  
What you need, what you need  
What you want, what you want  
What you need, what you need  
What He has is something genuine  
Who He is is someone real  
What He gives is something truthful  
It's what He has, it's who he is  
It's what He gives  
And I need Him too  
What you need, what you need  
I need Him too  
What you want, what you want  
What you need, what you need  
Something genuine  
What He has is something genuine  
Who He is is someone real  
What He gives is something truthful  
It's what He has, it's who he is  
It's what He gives  
And I need Him too  
What you need, what you need  
I need Him too  
What you want, what you want  
What you need, what you need  
Something genuine  
Do you know what you need?  
Do you know what you need?  
I know what you need  
'Cause I, I need it too  
Something genuine  
He is something genuine
