

# Alive

## Mya

So alive  
Oh oh oh oh, oh yeah  
[Verse:] Just call my name and I'm already there  
You don't need to write it in the sky my ba-by  
I can make the stars light up for you I swear  
My love's in your forever  
So as we dance, all night  
What the love going up to the milky way  
You'll let me know  
Hold tight  
I promise, I promise, I'll never leave your side  
[Chorus:] When you're holding me,  
Kissing me, loving me ? I can't deny that with you I feel so alive.  
The sweetest melody, in my ear, chemistry  
Is blowing my mind, with you I feel so alive.

Alive  
With you I feel so (alive, alive)  
With you I feel so alive  
You can take a look inside my heart  
I'm sure that you will find a picture of us  
From a single spot  
We'll always shine in the dark  
[Chorus][Verse:] If your hand fits mine perfectly like a glove,  
I just hope that nothing comes between and breaks us up  
What we share is incredible, but magic comes  
So don't stop, doing me right.  
With you I feel so alive  
[Chorus]
