

# Have I Told You I Love You Lately

## High Valley

High Valley have I told You I Love You Lately

So many things

Running through my head

All too often

They go unsaid

Sometimes it seems this crazy world

Is taking its toll on you and me, girl

[Chorus]

Have I pulled you in tight

Gazed into your eyes

Stolen you away

Whispered your name

Oh baby

Have I told you I love you lately

Have I held you in my arms

Kissed you in the dark

Got down on my knees

Showed you how I need you baby

Have I told you I love you lately? I know I know

It must have been a while

Since I brought on that pretty smile

I know you heard me say these words

Oh Lord I'm hoping

One more time won't hurt [Chorus x2]

Have I told you I love you lately?
