Omg Girlz

new song released today.oh oh ohStar-
ohh it seems like there aint enough time in the day to be with my baby,
and it feels like I sat and fell for you and there was no parachutes
and I look at you i don't but you already know that we have to say goodbye
But you already know That we have to say goodbye
So I just wanna chill and vibe with you Boy[Babydoll:]
I just got my nails done
And my hair too
I'm flyy
He just got some new shoes
And his hair cut He fly
I can't wait to cruise with you
Cool with you And beyond
I can't wait to cruise with you
Cool with you And beyondYeahCourse
Ridin real slow
With the music real loud
And the sun goin down
Like it's sittin on a cloud
Ridin real slow
With the music real loud
It's just me and you
We don't even need a crowd
Ridin real slow
With the music real loud
And the sun goin down
Like it's sittin on a cloud
And it's just me and you
And it's just me and you
And we don't even need a crown
Even need a crowd[Beauty:]
All of these lights
