

# Pickpocket

## Mutts

Picked you out my pocket  
And you fell into the road  
You asked me if I'd make it better  
Asked me if we could grow old together  
But you don't mean a thing to me  
So I walked by quite happily  
And now I guess that you've moved on as well  
Took me to the bricks you stacked to build a wall, keep peace intact  
Protect your family, keep them from harm, live peacefully  
But they came crumbling down the second you left town  
And now your family are gone, are gone  
Understand me, take me fully  
Underground where I cannot be found  
Understand me, take me fully  
Underground where I cannot be  
Found a letter that you wrote  
That had been stashed inside my wall  
Telling me all about your life  
It had been there for a quite a while  
It skipped out certain chapters that I thought had really mattered  
And now I feel like I missed out  
Out, baby out, get out of town  
Baby out, baby out, get out  
Baby out, baby out, get out of town  
Before it catches up with you and you cannot withstand  
Before it catches up with you and you cannot withstand  
Before it catches up with you and you cannot withstand
