

Run Right Back In

Armor for Sleep

I've got soul working for me half the time
Only when I'm half alive
Thinking I'm someone else I saw you praying just to pray for me
I felt something happening
I was just falling asleep But thanks for your help
Thanks for your help Pulling me from the flames
Won't stop the fire
I'll just wait til you leave
Then run right back in I'll run right back in
I'll run right back in
I'll run right back in I've got plans mostly just to hang around
Hoping for a hand-me-down
Staring at my bright future I drive around waving like a sad parade
At the kids all out to play
I'm good, go have fun on your own But thanks for your help
Thanks for your help Pulling me from the flames
Won't stop the fire
I'll just wait til you leave
Then run right back in I'll run right back in
I'll run right back in
I'll run right back in Can you see my room from there, burning, burning?
Can you see my room from there, burning, burning?
Can you see my room from there, burning, burning?
Can you see my room from there, burning, burning? Pulling me from the flames
(Don't try to pull me out)
Pulling me from the flames
(Don't try to pull me out) I'll run right back in
I'll run right back in
I'll run right back in Pulling me from the flames
Pulling me from the flames
Pulling me from the flames
Pulling me from the flames I'll run right back in
I'll run right back in
I'll run right back in
I'll run right back in
