

# To Be Alone with You

**Bob Dylan**

Is it rollin' Bob?To be alone with you  
Just you and me  
Now won't you tell me true  
Ain't that the way it outta be?To hold each other tight  
The whole night through  
Everything is always right  
When I'm alone with youTo be alone with you  
At the close of the day  
With only you in view  
While evening slips awayIt only goes to show  
That while life's pleasures be few  
The only one I know  
Is when I'm alone with youThey say that nighttime is the right time  
To be with the one you love  
Too many thoughts get in the way in the day  
But you're always what I'm thinkin' ofI wish the night was here  
Bringin' me all of your charms  
When only you are near  
To hold me in your armsI'll always thank the Lord  
When my workin' days through  
I get my sweet reward  
To be alone with you
