

# Hate It

## Take That

Hate it but I love her  
Hate it but I want her  
Feeling like I need her  
Our love, our love was true This is the time I feel it  
Here in the middle of the night  
Still wide awake and feeling cheated  
From a girl I thought was treating me right Hate it but I love her  
Hate it but I want her  
Feeling like I need her  
Our love, our love was true Gotta get away from the feelings I had  
Be real you won't be seeing her again  
It's complicated when you're feeling so bad  
And your girl is still walking away Hate it but I love her  
Hate it but I want her  
Feeling like I need her  
Our love, our love was true
