

# Man In the Window

## Darshan Ambient

In the stillness of winter  
Through the haze of a moonlight  
All the stars in the canyon  
I'm the voice in the shadows

Like the glory of summer  
I love to drift on the weather  
Up on the rooftop of houses  
Under the river of silence

I am the stillness of autumn  
And all the leaves that surround you  
I am the life you would be (too hot)  
I am the man in the window

I am beauty in (rudeness)  
I am hatred and/in sorrow  
I am the sound of the (temple) bend  
I am the roar of the ocean

(The words in "( )" are my best guess)
