I Swear This Place Is Haunted

A Skylit Drive

Is there something beyond science going on here?
In the deadly fear
Rise up willingly and comfort us
This is the last winter
Part of a change for betterI'm moving forward now
The thought of a ghost brought me to life
I'm moving forward now
Turn all of this white
The creature at night
You said it would never find out where I rest my head at nightLet us be the ones who block out the sun
Light projects through myselfWhat have I done to deserve this?
What have I done?
I have learned of the virus
We are abouve thisIt's our time to rise
We've built this it's ours
It's our time to rise
Build it up, break it down, we built this it's oursI'm moving forward now
The thought of a ghost brought me to life
I'm moving forward now
Turn all of this white
The creature at night
You said it would never find out where I rest my head at night
