Storm

JosÃ‰ GonzÃ•lez

Send me a position
It's getting lonely down here
Things holdin up to late for me
And kept me from sinking

Why do you keep on running?
This love is fading way to fast
All the stars are burning (for you)
But non of them are going to last
So stop chasing your past

As soon as the storm is over
And all the fog is clear
As soon as the storm is over
I promise to send out for you

As soon as the storm is over
Ooh
As soon as the storm is over
Ooh
As soon as the storm is over
Ooh
As soon as the storm is over
