

# The Last Time

Beatrice Eli

When the party's over  
I want you  
I can't stop thinking  
About you  
I don't wanna talk about it  
It's too hard to  
Nobody loves me  
Like you do Yeah I've been thinking 'bout the fun we had  
And all the places that you put your hands  
But all you ever do is hurt me  
Yeah you really hurt me Last night  
I swear it was the last time  
We never seem to get it right  
I swear it was the last time You only ever want me when it's too late  
The more you give me the more I can't take  
We're running round in circles  
My biggest mistake  
But I can't feel the pain  
I feel nothing  
Please say you love me I'm not calling you to talk tonight  
I just wanna fuck until the morning light  
Cuz all you ever do is hurt me  
Yeah you really hurt me Last night  
I swear it was the last time  
We never seem to get it right  
I swear it was the last time I could keep calling but my heart can't take it  
All you do is break it  
And I just can't take any more lies  
I'm hurting  
I'm always hurting  
I'm really really hurting  
And I just can't take anymore
