

Happiness Is

Big Head Todd And The Monsters

Sinve we've made love it's true
I can't take my mind off you
It's emotionally so brand new
Like I've never felt it before You're the first sun rising in my dawn
You're my tender rhapsody, my song
Now you've got me seeing it baby
Like I've never seen it One love
One life
One chance
Come together (come together)
One way to the light
One soul (one soul)
Shine forever (shine forever) You shake me with your superpower
You made my life a blooming flower
Every minute of every hour
Doin' it like the first time One love
One life
One chance (one chance)
Come together (come together)
One way (one way)
To the light (to the light)
One soul (one soul)
Shine forever (shine forever) Tonight
Let love open up your heart to mine girl
Listen to yourself
Happiness is... All your kisses unify
Satisfy refresh and renew my mind One love
One life
One chance (one chance)
Come together (come together)
One way (one way)
To the light (to the light)
One soul (one soul)
Shine forever (shine forever) One love for the rest of my life
One chance at the very first time
Only one way into the light
One soul
Shine forever Tonight
Let love open up your heart to mine girl

Listen to yourself Tonight
Let love open up your heart to mine girl
Listen to yourself
Happiness is...
