Letter From A Friend

Carlos Viola

Never a day goes by when I can't see his face
And I can hear a thundering voice that no one will replace
But since he left you've been hiding out and I can understand
It seems to me about that time you should be coming back againI can feel the pain
That won't go away
We can't change that he left us
But it's up to you to stayAnd I will make sense of it all
Gonna try to make sense of it all
You ask me why, 'cause it's all I can do
I miss him every day, but now I miss youI know it hurts right now but you got to keep moving on
And I know how good it can feel when you're safe and withdrawn
But he can live in our memory, you don't yet have that choice
'Cause you're still here and you speak to me
You're gonna have to use your voiceI ain't telling you what's right
I ain't telling you what's wrong
But it's he who has died
And it's you who has goneAnd I will make sense of it all
Gonna try to make sense of it all
You ask me why, because it's all I can do
I miss him every day, but now I miss youI know you're thinking now you must go through this alone
But it's time to come home
And I feel the pain that won't go away
We can't change that he left us, but it's up to you to stayAnd I will make sense of it all
Gonna try to make sense of it all
You ask me why, 'cause it's all I can do
I miss him every day, but now I miss youAnd I will make sense of it all
Gonna try to make sense of it all
You ask me why, 'cause it's all I can do
I miss him every day, but now I miss you
