Heaven

Lasgo

It was hard to find out that you didn't love me
It was hard to find out you played a game
It was hard to find out that you have used me
It was hard to find out you didn't care
Was I wrong
Or was I right?
I need you forever
Not just for one night
'Cause you're an angel sent from Heaven above
You take away my pain
I still feel lonely and so empty inside
I know that you can't stay
'Cause you're an angel sent from Heaven above
You take away my pain
I still feel lonely and so empty inside
I know that you can't stay
It was hard to find out that you didn't love me
It was hard to find out you played a game
It was hard to find out that you have used me
It was hard to find out you didn't care
Was I wrong
Or was I right?
I need you forever
Not just for one night
'Cause you're an angel sent from Heaven above
You take away my pain
I still feel lonely and so empty inside
I know that you can't stay
'Cause you're an angel sent from Heaven above
You take away my pain
I still feel lonely and so empty inside
I know that you can't stay
'Cause you're an angel
You take away my pain
'Cause you're an angel
I know that you can't stay
'Cause you're an angel
You take away my pain
'Cause you're an angel

I know that you can't stay
