

Where I'm From (Remix)

Digable Planets

Advisory - the following lyrics contain explicit language:

Spaces and places we fly
Kicks are for places and spaces we fly
Space and all the fat places we fly
Butter, baby to the jet in the cut, dig it Boogie jive and rap is life where I'm from
Where I'm from, I might play with Izzy where I'm from
Where I'm from, it be like, "Run your coat black"
Jupiter, keeps her fat beats by the pack Where I'm from, nappy hair is life
We be reading Marx where I'm from
The kids be rockin' Clarks, where I'm from
You turn around your cap, you talk over a beat And dig some sounds boomin' out a jeep
Where I'm from, cocoons hide the youth, swoon units 100 proof
You want some beef, they will cut you some
Where I'm from, the beats is infinite where I'm from Voodoo, ashubani, gangsta, lean where I'm from
I'm interplanetary, my insect movements vary
It's kinky if it's hair, G, where I'm from
The fire hoses blow, it's purple wind and snow I do a hit and go, split
It's hip, what's hip? When hip is just the norm
'Cause Planets pledge allegiance to the funk in all it's forms
The kinks, the dance, the prints in all the shirts My grandmother told my mother it's Africa at work
On vibes, we freak, them universal beats
You find it at the spot, you hit at ends of every week
We twist, exist to spin the maddest hits Up here funk is our neighbor, so we paid her a visit
The lip we sip, can't house the nine zips
For rock we can't do nothin', for this we come equipped
Off disc, off tape, rap blastin' till from 8 The really, truly, fat the fly on the flip
Cocoa gotta know, how Planets, gotta roll
Speak the mega cool, get funky as a goal
It's calm, relax, we're only some new jacks That acts from the funk
But don't play the role
Where you from? Spaces and places we fly
Pop it to places and spaces we fly
Space and all the hit places we fly, yeah

Money was the haps, underneath my naps, come Weekend 'Dig Plans', got T's where I'm from
 Where I'm from, it's Collins 13 where I'm from
 Where I'm from, brothers took the beat and got fly
 Why? That's most asked by 85, where I'm from Fakin' the funk you get did
 Projects, tenements, pyramids
 Where I'm from, we're livin' off the boom, boom crack
 It's that hip hop rockers jazz when I max Peace be the greeting of the insect tribe
 Pestilent forces can't catch the vibe
 We live to love and we love to rock mics
 We speak in ghetto tongue 'cause ghetto's the life Food for thought, so get a buffet plate
 The lyrics are so fat you might gain weight
 So just watch me step alone, into the sunset
 Left foot, right foot, 1, 2 mic check Brewin' funk inside my soul kitchen
 So pull up a chair here's a bit have a listen
 Of hardhead intervene, damn, I know you're fluent
 Yeah, 'cause Doodle ain't havin' it and Butterfly knew it
 Where you from? Spaces and places we fly
 Lay it on places and spaces we fly
 Space and all the smooth places we fly
 Junk for the G rise, Mecca, yeah, you know it's like Venus acts a fool at the square, right? Yeah
 Doctors engineer in apparel, right? Yeah
 Hip-Hop made a point last year, right? Yeah
 But Planets is the joint this year, right? Yeah Planets got the dubs and live to grass-hop
 Duck out from the fuzz, that sweat the hip-hop
 Risin' like we foam, get it from the dome
 I'm from where the fat beats stretch for mad blocks We can get a kit, without no thread
 Feelin' funky beats go straight, to the head
 Fall into a club, dig on what we love
 It be past six, before we reach bed Butter freaks on relics we say, those are fat
 Doodle makin' silk, LaQuan, where it's at?
 We need to stack a sack, for rap to take us dap
 So we treat our clips, just like, bustin' caps Rip it 'til dawn, kick it 'til dawn
 Hip-Hop is the fix or else we be gone
 People thought they canned it, rap is not by bandits
 Digable Planets got it, goin' on Everywhere, every, every where, yeah
 Everywhere, every, every where, yeah
 Everywhere, every, every where, yeah
 Everywhere, every, every where, yeah Everywhere, every, every where, yeah
 Everywhere, every, every where, yeah
 Everywhere, every, every where, yeah
 Everywhere, every, every where, yeah
