You Bet We've Got Something Against You!

Black Flag

Spoken:

You don't have anything personal against me do you?
You bet I've got something personal against you!We know you stole our song

You were there

every touch is wrong

You were there fuckin' wrote it all down

You regret everything you've done nowYou bet that I've got something personal against you!

You deny all the sleaze and graffiti

You inflect

You look from our path

It's minus and you're impossible laps

We know

What you've been lying about

Now you bet that I've got something personal against you!

You deny

Sitting at the corner

You die

But the love of your own

You've got nowhere to go but down!
