

Come Back Alive

Sepultura

Sent in the middle of a war
You have to fight
Wondering how the fuck
You ever landed over here
Never thought about all the bullshit
That they feed
Now you're thinking how to keep
The bullets from your head Every face alive you might have to take
The mind can only take so much before it breaks
You have to take control, it's your fate
They taught you how to move
How to kill, how to die Come back alive, don't end up dead
Come back alive, don't end up dead
