Monkey Boy

Candypants

Monkey boy is all unafraid in a hurry
Lion eyes are all that he can see
Swingin' for his life in the dark in the jungle
Watch he wouldn't bump into my tree

Better little safer to be lonely
His imperative is pushed aside
Mighty little vine unfurls to only take the monkey boy on an auto ride

Go safari girl all alone in the jungle
Waitin' for the one to rescue me
Cooty-pickin' boy got his tail in a bundle
Runnin' from the possibility

Better little harder to be lonely
His imperative is pushed aside
Mighty little vine unfurls to only take the monkey boy on an auto ride

Honey fur all around
Call to the boy, oh monkey, pull me down

Purple bottom boy all aware in a hurry
Screamin' to the girl, "I wanna be like you!"
Can he make a fire in the brush in the jumble
Oh safari girl will feed it too

Better little happier together
His imperative is pushed inside
Mighty little vine unfurls to finally take safari girl on a monkey ride

Mighty monkey ride
