circumstances

Xylos

Come and wash away
The sins of two of us
They're creeping out
Crawling out
Searching for some decency
Sold, my soul away
To keep you coming back
Calling back
They send it back
And told me it was lunacy
Desensitize me, you fools I can be
Anything you want me to
Just sit right back, are you with me, with me?
Well if it happens to me
It'll happen to you sometime
Are you happy to see?
I learned my lesson too
Don't hesitate
You see me reaching out
Calling out
Is it all about your place up in society?
Last effort, hooked and sold
But then you throw be back
Within a flash
You took out the trash
And wiped your hands above my face
Desensitize me, you fools I can be
Anything you want me to
Just sit right back, are you with me, with me?
Well if it happens to me
It'll happen to you sometime
Are you happy to see?
I learned my lesson too
I learned my lesson too
Comes in time
Goes away
Leaves you blind
Rapes your mind
And it strips you of your sanity

Comes in time
Goes away
Leaves you blind
And it strips you of your sanity
Comes in time
Goes away
Leaves you blind
And it strips you of your sanity
Desensitize me, you fools I can be
Anything you want me to
Just sit right back, are you with me, with me?
With me, with me?
Well if it happens to me
It'll happen to you sometime
Are you happy to see?
Well if it happens to me this time
It'll happen to you sometime
A lesson I learned in life
I learned in life
I learned in life
I learned in life
