

Before You Cry

Camera Obscura

No sense, no style
Said, "I loved you for a little while"
When you cried, "No"
High speed became go slow Come back this time
Wishful thinking is gonna make you mine
Push turns to shove
Got no more room for love I hope you hear me
Can't stand you next to me
Get lost, goodbye
I'll smile before you cry I love you, baby
Oh, please don't hate me
You're feeling a little sad tonight
But you'll be alright
(Yes, you will) You're feeling a little sad tonight
But you'll be alright
(Yes, you will)
You're feeling a little sad tonight
But you'll be alright
