

I Want Someone Badly (with Shudder To Think)

[Jeff Buckley](#)

Now I want someone badly
Got a girl here tonight
Wants someone new
Someone new
A little cry wants someone badly
I want to know if this is a bad lease on me I want to know
I want to know
Am I sure that I heard you right
I want to know
If you're leaving just do it tonight Now I want someone badly
To burn in here with me
But listen baby
'cause I cry all over madly
Don't do anything do it for/with me Ooh I want to know
Am I sure that I have your love
I want to know
If you're leaving just make sure it's right
